Day Program

Can be provided on an individual or group basis. It is delivered flexibly and is centred on what the participant wants and reflect their changing needs. Activities are provided during the day, evening and weekends. The group-based programs operate on a leisure and recreation base and focus on skill development. Aiming to achieve community integration and participation through various recreational activities.

Each individual program of activities are centred on their own unique goals and interests with overall goal of increasing their independence and skills. Each participant is encouraged to explore their dream for their life and establishing meaningful interpersonal networks in their local community.
